## Chi-X Europe Connectivity

### Chi-X Europe and Savvis

Savvis is committed to providing low-latency, cost-effective market data and trading connectivity solutions for its customers to access the range of services offered by Chi-X Europe.

### Chi-X Europe Services Available Via Savvis

- **Chi-X Market Data Feed.** A real-time data feed and connectivity protocol that provides data about orders entered into and executed on Chi-X. The data service utilizes a proprietary protocol specifically designed for the high-speed dissemination of real-time order book information.
- **Chi-X Trading Connectivity.** Utilizing the FIX (v4.2) protocol, this allows trading participants to enter, amend, and cancel orders and receive executions. The trading interface ensures low latency and high throughput direct connectivity into the core matching engine without additional connectivity layers.

### Savvis Delivery

- **Savvis Community of Interest Network (COIN).** Low-latency exchange connectivity via Savvis' private managed global network allows Chi-X Europe subscribers to connect via Asynchronous Transfer Mode (ATM) or metro Ethernet multicast.
- **Savvis Exchange Express (SEE).** Lower-latency exchange connectivity directly to Chi-X Europe via metro Ethernet via Savvis' private managed global financial network.

### Advanced Market Connectivity

Savvis has more than a decade of experience successfully supporting real-time financial applications and market data. You can count on Savvis' high-performance global network, global data centers, and award-winning service model to deliver Chi-X Europe connectivity reliably and securely.

### Savvis: The Standard in Exchange Connectivity

In addition to Chi-X Europe connectivity, Savvis offers solutions which will extend your reach through connections to many of the world's top exchanges, electronic communications networks (ECNs), and liquidity venues. These include connections to NYSE Euronext<sup>SM</sup>, NASDAQ OMX Group, CME Group, London Stock Exchange, BATS Trading, and many more.
